## EXPO HIGHLIGHTS

One Mega Event 2017 concluded following three absorbing days of collaborations, networking and of sharing best practices. The highly interactive conference and expo succeeded in establishing meaningful connections between key players from the worlds of commerce, politics, research and development to contour the urban reality of tomorrow. The event showcased real-world innovative solutions, cutting-edge technologies and proven strategies that India would need to build livable, workable, modern and sustainable cities.

## KEY FACTS

## GOVERNMENT SUPPORT

One Mega Event 2017 was endorsed by nine ministries of the Government of India along with support from relevant missions including;

- Ministry of Electronics and Information Technology
- Department of Industrial Policy & Promotion, Ministry of Commerce and Industry
- Ministry of New and Renewable Energy
- Ministry of Panchayati Raj
- Ministry of Power
- Ministry of Road Transport and Highways
- Ministry of Rural Development
- Ministry of Skill Development and Entrepreneurship
- Ministry of Water Resources, River Development and Ganga Rejuvenation
- Make in India
- Digital India
- Skill India
- National Rurban Mission (NRnM)

### Opening ceremony

**Chief Guest** - Shri Rajiv Gauba, IAS, Secretary, Ministry of Urban Development

**Guest of Honour** - Ms Safra Catz, CEO, Oracle Corporation

### Other Dignitaries:

- Shri L.C. Goyal, IAS, Chairman & MD, India Trade Promotion Organisation
- Ms. Mei-Hua Wang, Vice Economic Minister from Taiwan
- H.E. Mr. Alphonsus Stoelinga, The Ambassador of the Netherlands to India

The exhibition and conference was attended by many other dignitaries including officials from ministries and departments, state representatives, city administrators, etc. The event was successful in updating relevant government stakeholders on current solutions and technologies for implementation in smart cities.

The Government of Arunachal Pradesh showcased two of their upcoming smart cities, i.e Pasighat & Itanagar, selected under the Smart Cities Mission for development.

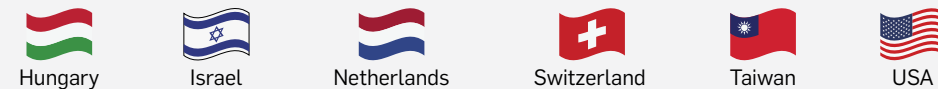

## INTERNATIONAL PARTICIPATION

Extending India's global appeal for investment in diverse sectors, One Mega Event highlighted the multi-pronged strategy of the Indian Government driven by the Make in India, Digital India and Skill India initiatives, and the Smart Cities Mission to transform trade and industry into an engine of socio-economic growth. Hence, the event attracted exhibitors, speakers, delegates and sponsors from across the globe.

The Ambassador of the Netherlands to India, H.E. Mr. Alphonsus Stoelinga committed to "lend India the Dutch expertise in urban planning, and help use the existing infrastructure efficiently."

Stating that India is in a position to attract substantial foreign investment, Ms. Mei-Hua Wang, Vice Economic Minister from Taiwan, said, "Every country has peculiar needs, and Taiwan has the capacity to devise customised solutions for India. By combining talent, software and implementation expertise, Taiwan can help provide smart solutions to India for the ambitious Smart Cities Mission."

### There were six country pavilions from

### Mayor's Conclave & Leadership Summit

Mayor's Conclave, a dynamic and exciting business programme for industry and government, engaged multiple stakeholders to address the needs of urban sustainability. Both industry and city leaders / mayors (national and international) discussed diverse topics such as best practices in urban policy innovation, how to encourage collaboration, boost investments, and offer lucrative business opportunities.

The focus of the Mayor's Conclave was to improve collaboration between cities and businesses. Cities need private sector involvement to address their urban challenges, improve efficiency and implement innovative solutions. Businesses, meanwhile, can benefit from a better understanding of cities' needs, and gain access to entirely new and lucrative markets. Through the Mayor's Conclave & Leadership Summit, local governments and businesses will have the opportunity to work together in solving urban challenges.

The key objectives met during the conclave included:

- Connecting local government and businesses to work together for solving urban challenges
- Improving efficiency in implementing innovative solutions
- Knowledge sharing and exchanging of ideas to explore new approaches in addressing city challenges
- Creating opportunities for government, businesses and citizens, etc.

Over 50 distinguished guests (Mayors, Commissioners, SPV CEOs, etc.) attended the conclave from various cities including Bhubaneswar, Chandigarh, Greater Hyderabad, Mangaluru, Nagpur, Nashik, Navi Mumbai, New Delhi, Shimla, Surat, Vadodara, etc.

### Smart Cities India Awards

The second Smart Cities India Awards 2017 were presented to individuals, policy makers, companies, government bodies and associations who have contributed the most to the Smart Cities Mission. Around two hundred entries were received at the second edition of the awards with 12 winners under 10 categories. Additionally, three Jury Excellence Awards were bestowed upon Sterlite Technologies, Larsen & Toubro Ltd, and Surat Municipal Corporation.

Category	Company	Project
Architectural Design Award	Jamnagar Municipal Corporation	Refurbishment and retrofitting of Khambhaliya Gate, The Lakhota Kotho, The Bhujiyko Kotho
Green Building Award	Mahindra World City Chennai	Mahindra World School
Smart Energy Award	BSES Rajdhani Power Ltd	Solar rooftop net metering
Smart ICT Award	eGovernments Foundation	Puraseva
	Kabadiwalla Connect	End-to-end Waste Management Solutions (Generators)
Smart Urban Mobility Award	KPIT Technologies Ltd	KPIT's Intelligent Transport System
Smart Water Project	WaterHealth India Pvt Ltd	WaterHealth Centers
Safe City Award	Fluentgrid Ltd	Safe Greater Visakhapatnam (centralized City Command Center; CCC)
Solid Waste Management Project	Serum Institute of India	Adar Poonawalla Clean City
	Govardhan Eco Village	Sustainable project in Wada district of Maharashtra
Smart Village Award	ECOSOFTT	Water Smart Model in Silua Tek Village
	Nanded City Development & Construction Company Ltd	Nanded City
Smart City Award	Sterlite Technologies	Wi-Fi solution for connected Smart Cities (Gandhinagar Municipal Corporation)
	Larsen & Toubro Ltd	Mumbai City Surveillance
	Surat Municipal Corporation	Rooftop Grid Connected Solar Power

### Smart Village Conclave

co-organized by Sehgal Foundation (Knowledge Partner)

68% of India continues to live in rural areas, and the contribution to GDP from agriculture and allied services has reduced from 52% in 1950 to 14% in 2013. While 50% of the overall labour force is still dependant on agriculture, this inadequacy is not sustainable. 26% of rural India is poor compared to 14% in urban areas. Rural literacy rates are significantly lower than the urban literacy rates. A fall in net attendance from primary to secondary is much steeper in rural areas, which also lags behind urban India in most indicators, i.e. infant mortality, percentage of anaemic population, access to basic services, etc. To explore methods to develop sustainable villages, a Smart Village conclave was organised on the third day of the expo. The discussions covered issues such as: the urban rural divide and integration, paradigm of sustainable agri-business growth via optimally bringing people together, technology and processes; enabling farmers to live a life of self-reliance, prosperity and dignity; solar electrification; digital panchayats; migration; capacity building; mobilising women, etc.

### Youth Leadership Summit

India is one of the youngest nations in the world. About 65% of India's population is under 35 years of age. This is the most dynamic segment of the population, which can lead India on the road to growth and development. The youth today should be active drivers and not merely passive recipients of development.

To harness young talent, One Mega Event organised the Youth Leadership Summit, which provided a unique opportunity for start-ups and students to participate and display innovative ideas / case studies or research. This stimulation provided real experience where the youth played a role in solving real-world problems for sustainability. Using a holistic approach, experts and mentors guided the youth to build solutions for the components of smart cities.

The summit consisted of three segments i.e Mentoring Young Minds, Start-Up Speaks, and Academia Interface.

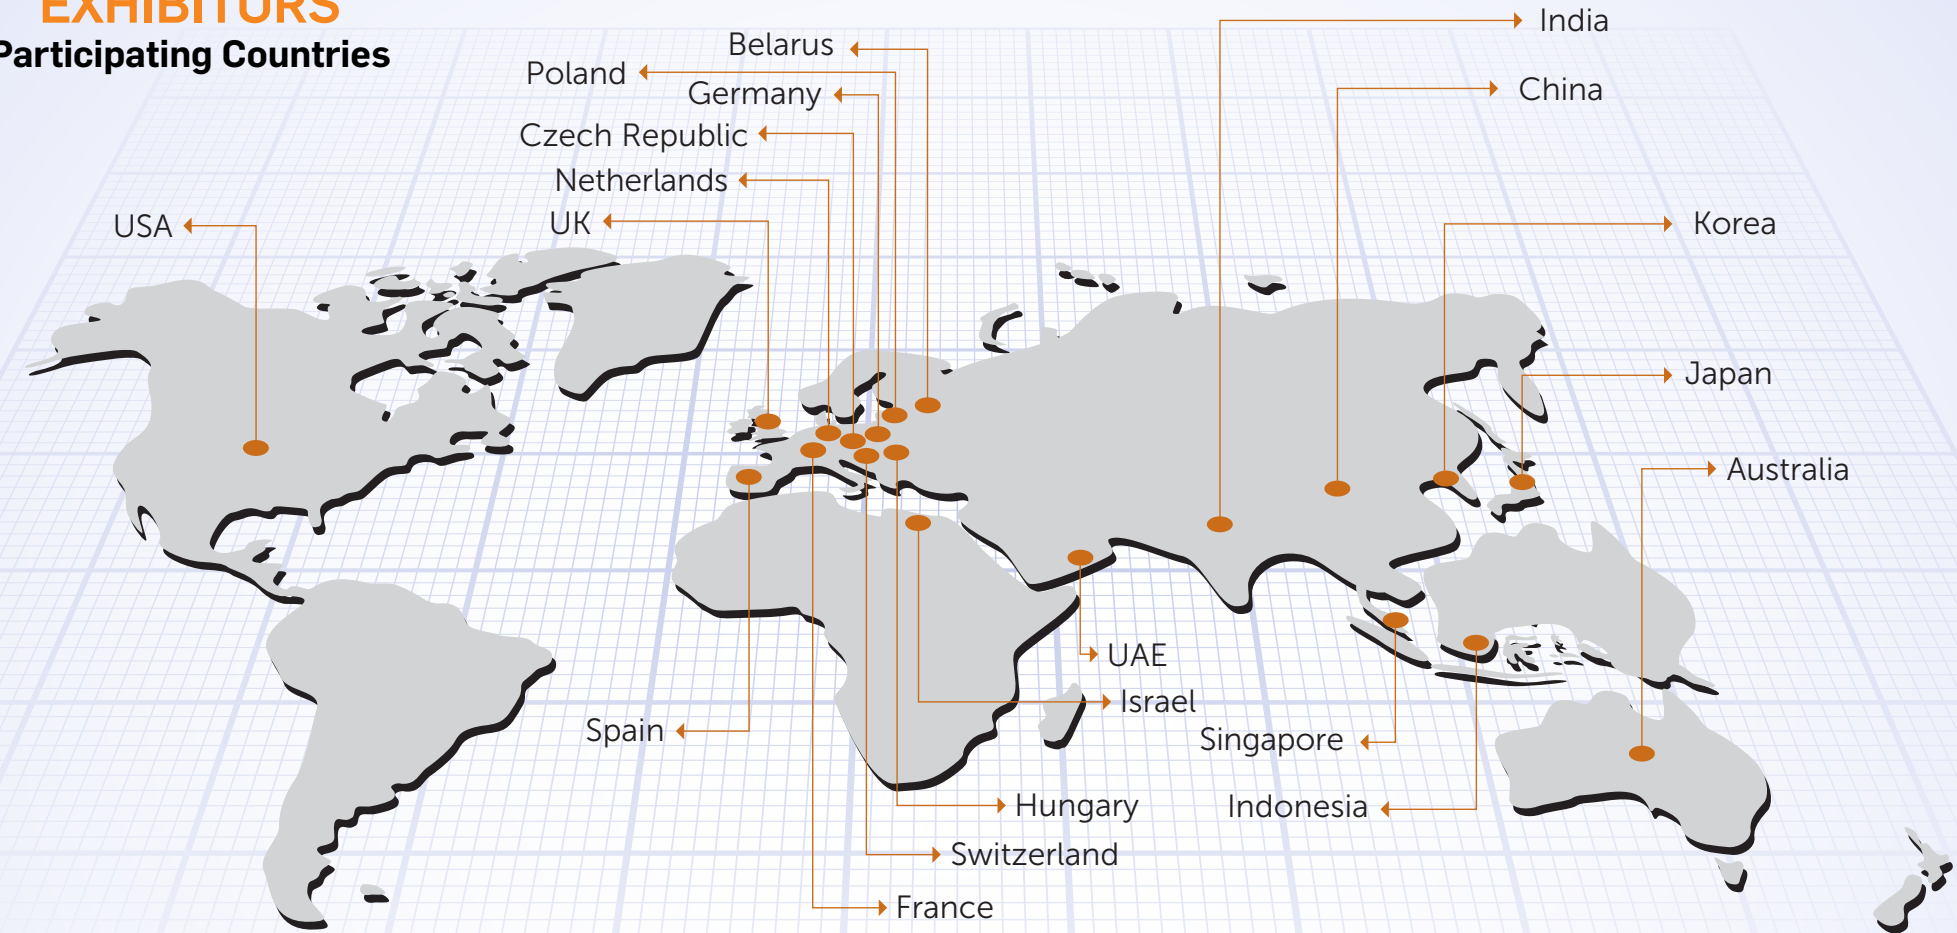

# CONFERENCE

DAY 1: 10 May, 2017					
0945-1100	Opening Ceremony				
	Room A: Urban Planning	Room B: Buildings India	Room C: Water India	Room D: Transport India	Room E: Solar India
1130-1300	Inaugural Conference Session: Smarter Solutions for a Better Tomorrow				
1300-1400	Lunch				
1400-1530	City Planning	Housing for All	Water Industry of India	Sustainable Transportation: Roadmap	State of the Sector- Targets, Roadmap and Challenges
1530-1545	Networking break				
1545-1715	Urban Design: Role of Architecture	IoT Enabled Infrastructure for Cities	Drinking Water & Sanitation	Green Transportation: Technologies	Financing RE
DAY 2: 11 May, 2017					
	Room A: Urban Planning	Room B: Buildings India	Room C: Water India	Room D: Transport India	Room E: Solar India
1000-1130	Communication Network and Infrastructure	Make it Sustainable – Building Materials (MiSBM): EU Experience in Materials Certification for the Indian Market	Technologies and Practices for Water Rejuvenation and Re-Use	Efficient Urban Public Transport and Facilities	Regulatory Framework
1130-1145	Networking break				
1145-1315	Translating IoT into Innovation and Better Services	Swiss Innovations for Smart Cities in India	Reviving Water Resources & Its Management	Workshop by TAIWAN	Jobs and Skills
1315-1400	Lunch				
1400-1530	Building Safe and Secure Cities	Green Buildings	Preserving and Protecting the Water Resources (River Development)	Developing the Intra-City Multimodal Infrastructure	GSES Master Class on Solar Rooftop
1530-1545	Networking break				
1545-1730	e-Governance for Smart Cities	Safe Infrastructure for Smart Cities	Closing the Water Loop -Wastewater management and reuse for Smart Cities: Session by CDD	Traffic Management & Road Safety	Make in India- Solar Manufacturing Sector
DAY 3: 12 May, 2017					
	Room A: Urban Planning	Room B: Buildings India	Room C: Water India	Room D: Transport India	Room E: Solar India
1000-1130	Solid Waste Management in Cities	Facilitating seamless procurement of goods & services for timely execution of construction projects: Workshop by CIDC	Industry, urban and rural water requirements	Parking Infrastructure and Management for Smart Cities	Grid Integration- Storage, Big data etc,
1130-1145	Networking break				
1145-1315	Role of Geospatial Technologies in Enabling Smart Cities - by Geospatial Media & Communications	Real Estate Development	Europe and India Partnering for a Better Tomorrow: Workshop by EU	Intelligent Transport System (Connected vehicles)	Grid-Connected Solar Rooftop
1315-1400	Lunch				
1400-1530	Health and the Cities	Investment Realities in Real Estate	Demonstration of Live Smartphone Hacking	Developing a Skill Driver Programme in a Smart City and Set-up Driver Assessment workshop by Fleet Forum	Off Grid Solar

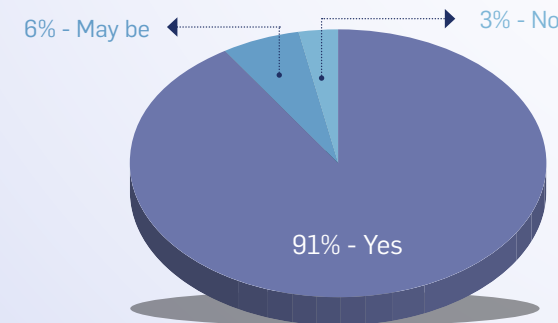

# EXHIBITORS

# VISITORS

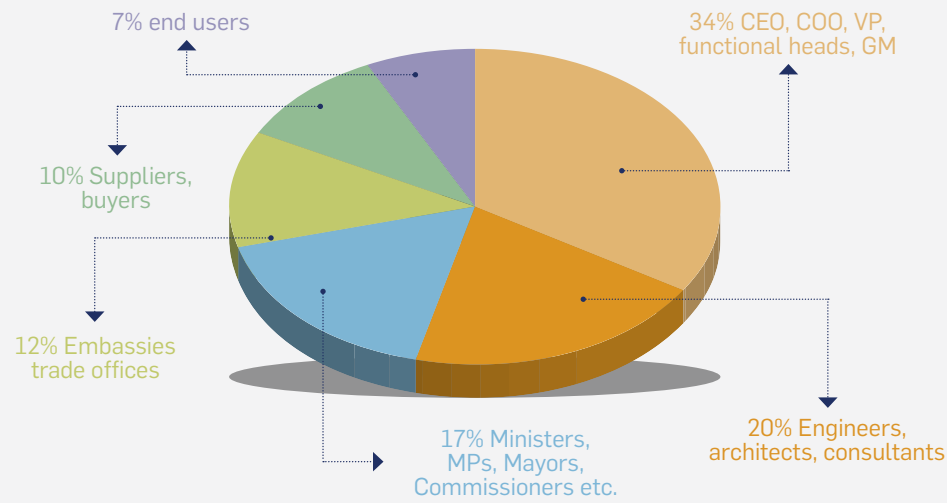

## Participation

## Industry Profile

## Job Functions

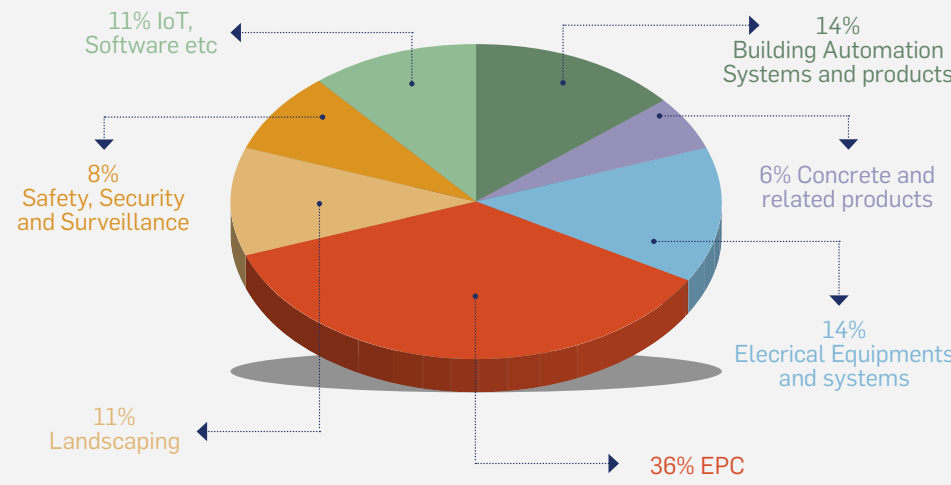

# SECTORS

The Buildings India 2017 expo focused on smart technologies and innovative solutions related to green buildings, smart appliances, smart lighting, housing for all, etc.

### Demographics

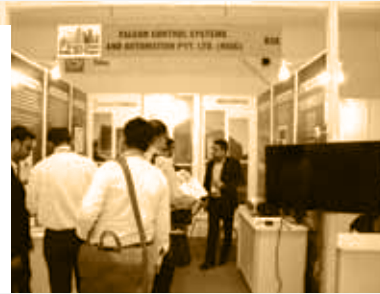

### Exhibitor Feedback

The event was an eye opener for Itanagar Municipal Council to improve in various sectors. The event was a historic platform for interactions on various aspects of Urban development which paves way for the industries and the policy makers to learn from the expertise of each other and to explore latest best practices and technologies for smart City solutions.  
**Kipa Kaku, Chief Councillor, Itanagar Municipal Council, Arunachal Pradesh**

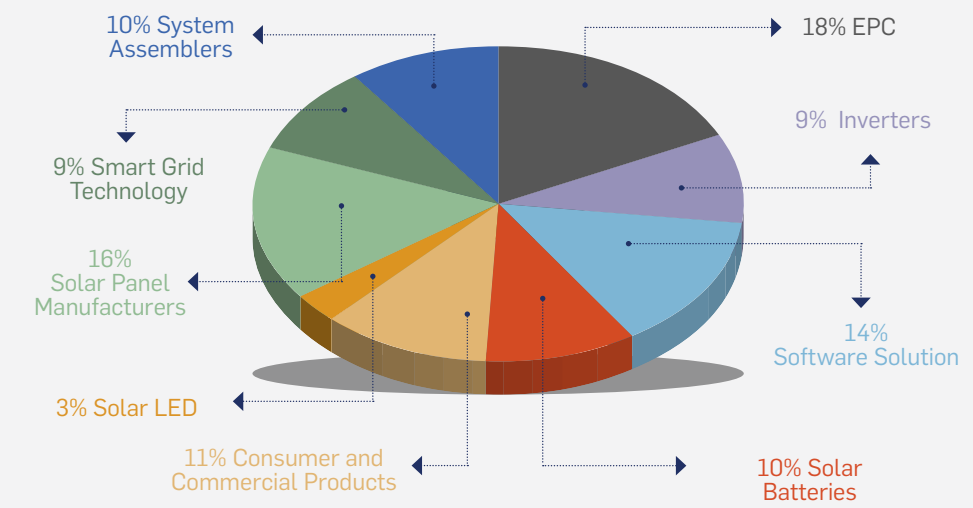

"One Mega Event has given us the best platform for showcasing our products and new technologies. We have closed many deals through this exhibition. The return on investment is commendable. It was a great show which helped many companies like us. Keep up the good work!"  
**Ankit Desai, Operations Head, IntuitThings- A Brand by Falcon Control Systems and Automation.**

The 2<sup>nd</sup> Solar India 2017 expo focused on Prime Minister Modi's target to achieve 100 GW of solar power capacity by 2022 with an estimated investment of around US\$ 100 billion. Products on display included rooftop and ground mounted solar, battery storage, nano-grids, solar street lighting, consumer and commercial products, solar pumps, etc.

### Demographics

As a smart metering system provider, the event gave us a brilliant opportunity to gain visibility in this field. We had several visitors from the Government and public sector utilities. The response from the rooftop solar providers has been very significant. At fairs like these, we have the opportunity to integrate, talk and connect with solar companies for net metering.  
**Manan Srigriri, JnJPowercom Systems Ltd**

Considering there were stalls by manufacturers and service providers that cover the entire gambit (module manufacturers, wire manufacturers, battery and inverter solutions, trackers, EPC etc) of solar, under one roof, the event was a huge value-add for attendees, and we certainly gained some business prospects by participating in the show.  
**Aditya Gupta, Senior Manager - Business Development Fourth Partner Energy**

### Exhibitor Feedback

We would like to thank you for organizing such a beautiful event. It emerged as a great opportunity for us to dig deeper into the market, reach clients & enlarge the customer base both on local as well as global grounds.  
**Shashank Kumar Singh, Corporate Marketing Manager, Gautam Solar Pvt. Ltd.**

Thank you for providing us the opportunity to participate in the 2nd Solar India 2017 expo. This was our first time in a smart city event, and we received a good response from visitors and clients. We look forward to participating in future solar events organized by the Exhibitions India Group.  
**Vamshi Krishna, AGM Solar, Analogics Tech India Ltd**

The 2<sup>nd</sup> Transport India 2017 expo focused on smart technologies and solutions for convenient and sustainable transportation in cities. On display were electric buses, e-rickshaws, battery & storage systems, electric vehicle charging solutions, public transport, navigation, autonomous technologies, in-car connectivity, IoT based solutions, fleet management solutions, intelligent transport systems, road traffic systems, parking management, sensors, semiconductors and projects being explored under various missions including Skill India, Make in India, Smart Cities Mission etc.

### Exhibitor Feedback

This is the first time we have participated in this mega event, we have received positive feedback from industry leaders, government officials and other stake holders in upcoming smart cities. The quality of business leads we received has been substantial. Tata Motors has been successful in showcasing electric bus and mobility solutions for upcoming smart cities.

**Sanjay Bhatia, Head – STU and Government Business TATA MOTORS LTD**

We connected to various system integrators, consultants and potential partners. It was a good platform provided to the exhibitors and visitors. The conferences were good and provided insights on various issues, and experiences of various stake holders on smart cities. We would again be part of the expo and wish the organisers all the best.

**Yashesh Jain, VP – Strategic Marketing & Sales, Power Electronics / Masstrans**

We have participated in Transport India expo over the last two years. The show has definitely met all our expectations. We have received excellent response for our products including e-rickshaws, e-bikes, solar powered rickshaws etc. Needless to say, this platform will definitely help the electric vehicle industry to grow by leaps & bounds.

**Ayush Lohia, CEO, Lohia Auto Industries**

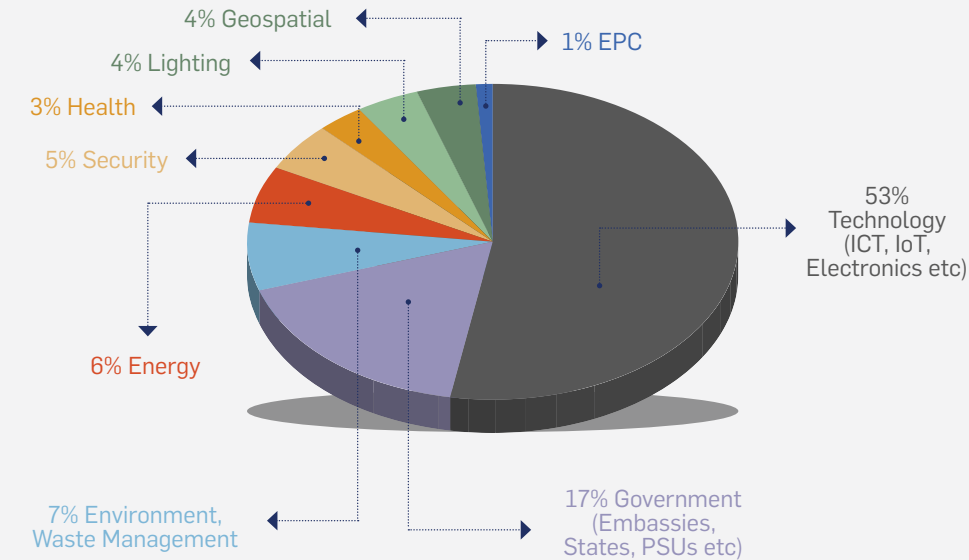

Our organisation is proud to be associated with the Smart Cities India 2017 expo, which offered an excellent platform to showcase our latest technological developments in Smart City Mobility and Smart Parking Solutions. Such an event will definitely help smart cities across India to opt for the right solutions, and overcome the growing challenges of mobility.

**Wilfred H. Menezes, CEO, Omnitech Group**

The 3<sup>rd</sup> Smart Cities India 2017 expo was organised to support Prime Minister Narendra Modi's Smart Cities Mission. The expo addressed the contemporary and future needs of India's urbanization: rejuvenating urban systems, improving urban infrastructure, and the quality of life of Indian citizens by providing sustainable and inclusive development.

### Demographics

### Exhibitor Feedback

"We are pleased to be a sponsor and participant in the Smart City India 2017 Expo. The show has given us opportunities to further our conversations and relationships with industry partners and potential customers, as we seek to deliver on Hitachi's mission of social innovation through intelligent IoT solutions and infrastructure that help Indian cities."

**Mr Justin Bean, Director of Smart City Solutions Marketing, Hitachi Insight Group**

One Mega Event brought the complete eco system of decision makers, influencers and service providers for smart cities under one roof. It was a great platform to showcase solutions, hear thought leaders and engage with customers and partners. This year the event was co located with our Global conference Oracle Open World and it truly helped us to leverage the event even better.

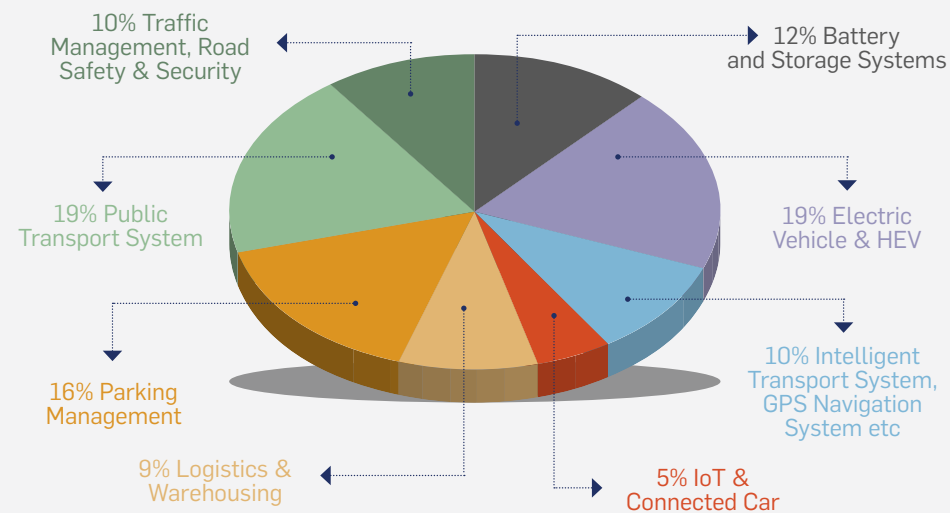

**Geetu Bhatnagar, Head of Marketing, Oracle India**

I am very pleased with the show. The response has been overwhelming and has generated a significant number of leads. Looking forward for the next one as well.

**Gaurav Sharma, Proprietor, Terratech Power Solutions**

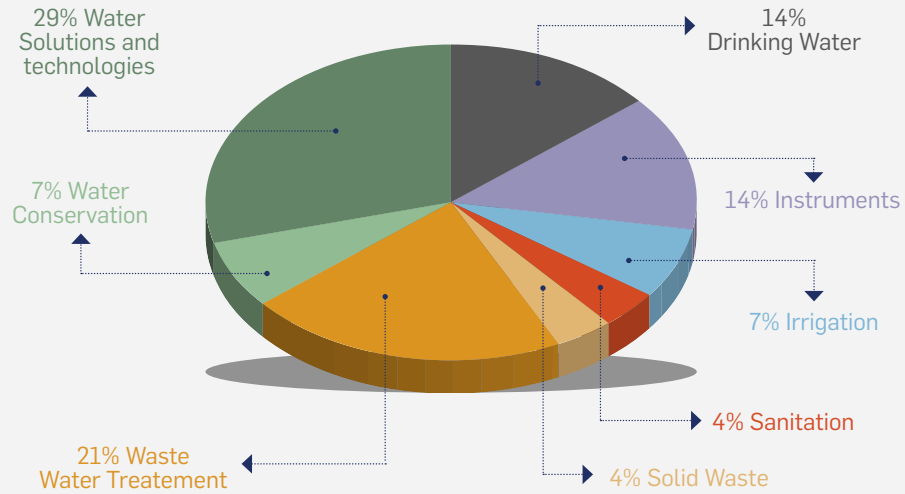

### Demographics

The 4th Water India 2017 expo focused on highlighting solutions which will help in resolving the crisis. Solutions on display included Air to Water technology, water filtration, water and waste management, sanitation, instruments, water pumps, etc... Over 70% of the water consumed by the rural population in India does not meet WHO standards. Approximately 80% of rural illness, 21% of transmissible diseases, and 20% of deaths of children are directly linked to the consumption of unsafe water.

### Demographics

### Exhibitor Feedback

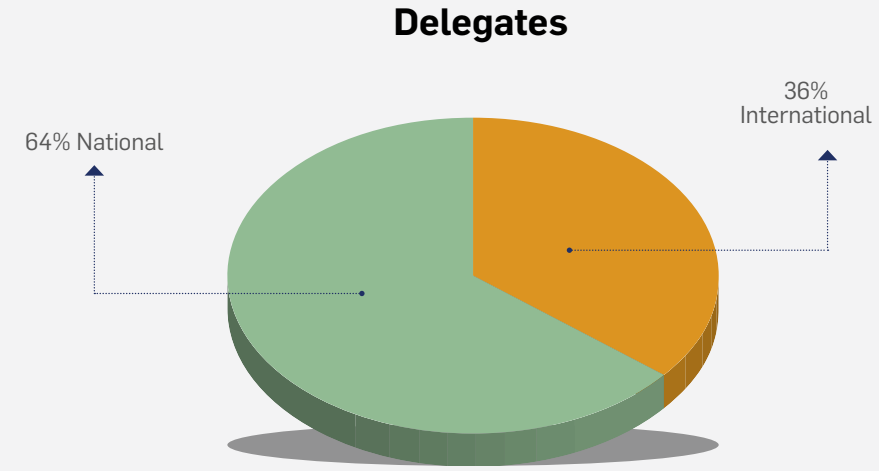

The visitor footfall at the exhibition booth and the business opportunities provided by this event were overwhelming. The objective to reach out to Indian State Governments and make them aware of the challenging yet exciting projects CH2M is implementing in India was accomplished successfully.  
**Mr. Vinod Singh**  
Vice President and Director, Asia, CH2M

"To participate at the One Mega Event, for the first time, was indeed a great experience. The expo provided all the participating Israeli companies opportunity to secure promising business leads. We received encouraging feedback from the Israeli companies. The conferences organized were also very relevant for understanding requirements of the Indian Smart Cities."  
**Barak Granot**, Commercial Attaché, Head of Economic and Trade Mission – Embassy of Israel, New Delhi

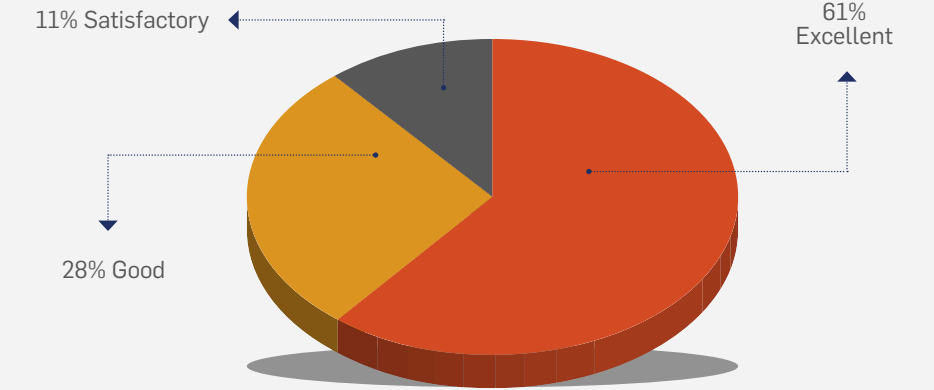

## DEMOGRAPHICS

### How would you rate the speakers?

### Industry Profile

## ENDORSEMENTS: Speakers & Delegates

Congratulatory comments were received from a wide spectrum of conference attendees. For the first time many of them witnessed such a large international conference of this magnitude. With six concurrent conference halls, managing 57 conference sessions over two and a half days was a unique achievement. 353 speakers consisting of ministers, industry experts, technocrats, planners, architects, designers, academia, etc., from across the world addressed a large gathering of delegates.

Some of the congratulatory messages received were as follows:

It was beneficial for our company as we were able to connect with potential customers, partners. We do really appreciate the effort that you all made to make our visit very convenient and hassle free.

**Ajit Sarnaik**  
Chief Architect  
Cognito Networks

At the outset, many congratulations to you and your wonderful team. Excellent arrangements were made in successful accomplishment of mega show. I thank you and your team for the prompt service, coordination and hospitality extended during the conference, a wonderful experience altogether working with you and your team.

**Dr. Abdul Matheen, ME, Ph.D.**  
Director - Mechanical,  
International Association of Plumbing and Mechanical  
Officials-India (IAPMO India)

Well organized by all means. Congratulations!  
**Vinod Agarwal**  
Mayor, Moradabad Municipal Corporation

I must express my sincere feelings that this was one of the best organised events I had attended so far.

**Dr Ramanath Sonawane**  
Additional Commissioner  
Nagpur Municipal Corporation

I had a great experience during the panel discussion and was impressed by the efficiency and professionalism displayed by the organisers. Wish you the best for your endeavours.

**Col. Rajiv Bhargava (Retd.)**  
Associate Director,  
Munjal Institute for Global Manufacturing  
Associate Director, Commercials,  
Indian School of Business

The show provided us with a huge opportunity to network with prominent doers and leaders of urban India.

**Agnès Bickart**  
International Relations Manager  
METROPOLIS

The conferences and the expo gave companies the platform to showcase solutions for problems faced by cities / urban local bodies.

**Goutam Hore**  
Finance Officer  
Haldia Municipality

# MEDIA CAMPAIGN

- Globally, 800 million respondents were targeted to create awareness about One Mega Event
- Digital promotion played an important role in creating awareness
- Google continued to rank the expo number 1 on their web pages
- Press releases, articles, event listings, and media invites were issued to maximise visibility of the event
- 159 Indian and international print and online media partners promoted the expo
- 371 articles appeared in leading electronic, print and online media
- 160,000+ invitations were mailed to:
  - Representatives from central and state government ministries and departments
  - Trade bodies and associations
  - Embassies in India
  - Representatives from public and private organizations; engineers; architects; consultants; suppliers; buyers; project management companies; system integrators; builders; property developers; non-governmental organizations; financial institutions; end users, etc.

The extensive promotional campaign conducted for One Mega Event was as follows:

## Digital / Electronic / Online

- 311 news items were issued by online portals (India Today, Money Control, Times of India, etc.)
- 5 TV channels broadcast coverage of the expo (CNBC, NDTV Profit, News Nation, Zee Business, etc.)
- 155 e-mailers were issued by media partners to their database
- 138 hyperlinked banner advertisements were displayed on online partner's websites
- Event listing was received in prominent event websites
- 52 e-mailers were sent to a database of 550,000+ (containing information on sponsors, speakers, conference programme, exhibitors and visitors).

## Social Media

- LinkedIn, Twitter and Facebook platforms were updated daily throughout the year.

## Print

- 54 articles appeared in mainstream papers such as Dainik Jagran, The Economic Times, Financial Express, Indian Express, Mint, etc.
- 175 advertisements were released in magazines / trade journals
- 90 advertisements were released in business daily newspapers (Hindu Business Line, Hindustan Times, HT Mint, The Economic Times, The Times of India, etc.)

## Collaterals

- Brochures, flyers, posters and invitations were distributed globally to business organisations, governments, departments, embassies, chambers of commerce, associations, academia, etc.
- Collaterals were distributed in relevant exhibitions and conferences
- Personal invitations were sent to architects, consultants, designers, developers, etc.
- The daily news magazine was published on all three days of the expo for distribution to attendees (exhibitors, delegates, government authorities, sponsors and visitors)
- An expo directory containing information about exhibiting companies was distributed to delegates and exhibitors
- A speaker profile booklet with speaker details and conference sessions was distributed to delegates and speakers.

## Tele-calling

- A dedicated team undertook extensive delegate and visitor tele-calling with smart cities industry professionals and stakeholders.
